ADR LAB8515

WRAP AROUND LABELING MACHINE

FEATURES:

- 30 Lots Cross Memory Module
- Labeling Delay Function
- Labeling Quantity Count Function
- Production Preset Function
- Miss Label Set - prevents mislabeling
- Built-in Troubleshoot
- Structure made from S304 stainless steel and hardened anodized aluminum

The LAB8515 is the right choice when it come to automatic wrap-around labeling. Thanks to the stable design of the machine, the labeling of cylindrical container such as glass bottles is possible with high speed and precision. A major advantage of the LAB8515 is that its not limited to existing features: The machine can be expanded with add-ons such as the Hot-Foil printer, which can apply codes such as expiration dates to your labels. This label applicator has been designed for easy reloading to reduce time wasted for operation to refill the labels, increasing production efficiency. Made of high quality anodized aluminium alloy, this machines promises durability and easy maintenance.

ADR LAB8515

SPECIFICATIONS

Model	ADR LAB8515
Label Size	H:170mm x L:300mm Max.
Maximum Label Roll Size	300mm max.
Maximum Bottle Diameter	180 mm
Label Roll Core	76mm
Conveyor Width	160 mm
Dispensing Speed	40m/min max.
Conveyor Speed	5~23 m/min.
Applicator Height	170mm
Dimension (mm)	2450mm (L) x 1320mm (W) x 1350mm (H)
Supply Voltage	220/110 Vac 50/60Hz 1 phase
Power Consumption	660 VA
Net Weight	Approx. 200 kgs
Certification	FCC, CE, RoHS
